AVer Room Solutions
for Zoom Rooms on Windows

· VB130 Kit Advanced

· VC520 Pro2 Kit Advanced

Create consistent hybrid meetings with AVer solutions. The VB130 Kit is intelligently designed for small/huddle rooms and the VC520 Pro2 Kit for mid-to-large rooms. Advanced camera functions such as SmartFrame, audio fence, and beamforming technology simply deliver quality audio/video performance. The secondary compact camera significantly enhances whiteboard and content sharing quality. Effortlessly bring real-time collaboration into any space.

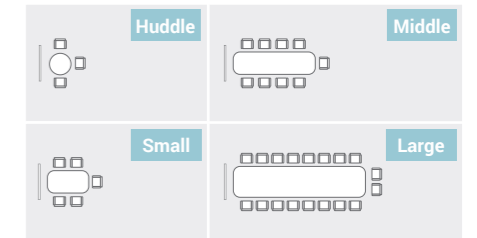

One-touch hybrid collaboration with Zoom Rooms

Smoothly turn any space into a virtual meeting room. Zoom Rooms supports wireless sharing and interoperability for SIP/H.323. Seamlessly experience the easiest way to hold meetings, share content, and book meeting rooms by signing into Zoom Rooms.

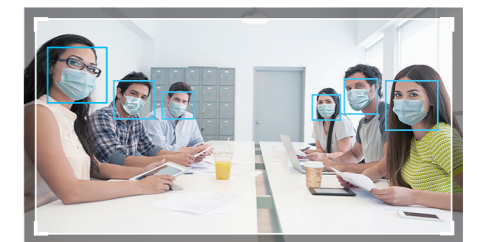

AVer solutions consistently create a great meeting experience

AVer offers two different solutions for all your meeting room size needs. The VB130 Kit and VC520 Pro2 Kit seamlessly integrate into huddle/small rooms and mid-to-large rooms respectively. You connect people across the hybrid workplace and run professional meetings with quality audiovisual performance through AVer solutions.

SmartFrame provides safe and smooth meetings

Fully automatic camera control. AVer advanced SmartFrame functionality follows and frames participants, even with masks. Easily make hybrid collaboration efficient and smooth with SmartFrame.

Audio Fence and Beamforming technology upgrade audio performance

Improved Audio fence completely blocks unwanted noises outside the viewing area. Beamforming technology precisely picks up sounds and delivers exceptional audio quality to every corner of the room. Get rid of disturbance at work and enjoy an uninterrupted and attentive meeting.

2nd 4K camera optimizes whiteboard content sharing

The second 4K camera enhances real-time discussion and content sharing by covering more space in the room. Immediately deliver ideas created with the whiteboard to any remote participants. Start a synchronous discussion with the 4K compact camera.
