

Optoma

| Optoma projector range

The clear choice for projection

Whether displaying graphics and data in the office or at home watching live sports and movies, Optoma projectors produce a bright, well balanced and true to life colour reproduction. This is essential for reaching the optimum image quality of any big screen media, whether neatly encased in a compact and portable projector or as a permanently installed display device.

Features	Image rotation, mirror, freeze, compare, built-in mic, built-in speaker, VESA Mounting supported	Image rotation, mirror, freeze, compare, built-in mic, built-in speaker, VESA Mounting supported	Image rotation, mirror, freeze, compare, built-in mic, built-in speaker, VESA Mounting supported

Document cameras

Model name	DC455	DC554
		
Resolution	XGA,UXGA, WXGA and 720 support	XGA, UXGA, 720, 1080 and 4K support
Camera	13MP	13MP
Zoom	8x digital	17x optical, 8x digital
SD card support	✓	✓
Video recording	✓ (via USB or SD card)	✓ (via USB or SD card)
Microscope adaptors	✓	✓
Connections	VGA in/out, HDMI in/out	VGA in/out, HDMI in/out
SmartDC	Software support Windows 7, 8, 8.1, 10 and Apple OSX 10.7 or above	Software support Windows 7, 8, 8.1, 10 and Apple OSX 10.7 or above
Features	Image rotation, mirror, freeze, compare, built-in mic, built-in speaker	Image rotation, mirror, freeze, compare, built-in mic, built-in speaker, VESA Mounting supported

Accessories

Optoma accessories to help you make the most of your projection experience.

Accessories

Ceiling mount
OCM818B-RU / OCM818W-RU

Universal flush ceiling mount – available in black and white.

Ceiling mount
OCM815B / OCM815W

Universal pole ceiling mount – available in black and white, with extension pole.

UST mount
OWM3000

Compact wall mount with vertical adjustment and adjustable mounting plate for easy installation. Designed for the Optoma ultra short throw projector range.

ST mount
OWM300ST

Compact telescopic wall mount with vertical adjustment and adjustable mounting plate for easy installation. Designed for Optoma short throw projectors.

Table mount
OTM2000

Project directly onto a table top for a large interactive display with this easy installation table mount. Designed for the Optoma 320UST / 319UST ultra short throw projector range.

Wall mount adapter
EWMA2000

Upgrade your Epson BrightLink, BrightLink Pro and PowerLite ultra short throw projector with an Optoma 320UST / 319UST projector. Compatible with Epson projector mounts (ELPMB28 / ELPMB43).

Universal carry bag
SP.8EF08GC01

Lightweight, durable and comes with a strap. Compatible with most Optoma projectors.

Carry bag L
SP.72801GC01

Lightweight, durable and comes with a strap. Compatible with GT5000+ / GT5500+ Optoma projectors.

For a full list of accessories and compatible products visit www.optoma.com

Accessories

QuickCast bundle
QCBUNDLE

This standalone presentation system gives presenters the freedom and flexibility to display content instantly from almost any device with an HDMI output. With no wires, software or applications to download, QuickCast is the ideal solution for hassle-free presentations at the click of a button.

QuickCast starter kit
QCSTARTER

This standalone presentation system gives presenters the freedom and flexibility to display content instantly from almost any device with an HDMI output. The starter kit includes 1x transmitter, 1x receiver, 2x HDMI extension cables and 2x USB to micro USB cables.

QuickCast cradle
QCCRADLE

Charging cradle for QuickCast transmitters.

QuickCast transmitter
QCTX

Additional transmitter for use with QuickCast bundle.

Wireless HDMI
WHD200

Stream 2D and 3D video content wirelessly to a projector or TV from a Blu-ray™ player, set-top box, gaming console or AV receiver; the WHD200 is capable of streaming 1080p formats including 24, 50 and 60Hz up to 20 metres in any room.

Wireless USB adapter
WUSB

WUSB lets you share photos, presentations and videos wirelessly. Ideal for use with Optoma ML750e and ML750ST.

HDCast Pro
H1AM6000001

Stream videos and music, and share photos and documents in Full HD 1080p from your mobile device or laptop to your display device with ease. Compatible with Miracast™ and DLNA™.

Optoma

Optoma has a full range of LED displays. To see the range please visit optoma.com

Glossary

4K

4K Ultra HD provides four times as many pixels as Full HD 1080p. That's 8.3 million on screen pixels (3840 x 2160) bringing greater realism to every scene with thrilling detail, colour and contrast.

Full 3D

Full 3D projectors can display true 3D content from almost any 3D source, including 3D Blu-ray players, 3D broadcasting and the latest generation games consoles.

Media player

A handy integrated media player means you can use the projector as a stand-alone device, retrieving content from the internal memory, USB stick or a memory card.

WUXGA

WUXGA projectors have a native display of 1920x1200 pixels with an aspect ratio of 16:10. This format has proved highly popular in commercial and business environments.

LED

Lamp free LED projectors are more energy-efficient than lamp based projectors and have a much longer life span (up to 20,000 hours).

TouchBeam interactive technology

Optoma's finger-touch technology allows several people to work simultaneously on the projected screen without using a pen. TouchBeam makes it easy to open documents or web browsers and draw, annotate, zoom and rotate images on the projected image.

Full HD 1080p

1080p resolution gives you sharp and detailed images from HD content without downscaling or compression; perfect for watching Blu-ray movies, HD broadcasting and playing video games.

Eco*

Eco* technology brings together high contrast, improved lamp life and energy saving features that are easy to use while reducing power consumption.

Built-in battery

A built-in rechargeable battery provides cable-free projection time and a quick and easy setup – perfect for impromptu meetings or movies nights. It can also be used to charge a mobile device.

HD Ready

HD Ready projectors can display 720p/1080i High Definition pictures. You'll still see a big improvement from 720p/1080i HD pictures, though you won't see every last detail from sources such as Blu-ray (1080p) discs.

24 frames per second (FPS)

Most movies are shot at 24 frames per second (fps). Optoma projectors can accept high definition sources at 24 fps to display movies exactly as the director intended.

DARBEE

Darbee's acclaimed Visual Presence™ patented technology further enhances Optoma projection technology and adds more depth and realism delivering a clearer sharper picture.

HDR compatible

Capable of receiving and displaying HDR meta data, Optoma HDR compatible projectors allow you to see far more detail and texture for lifelike images with a greater sense of depth.

Android™

With built in Android you can download popular apps such as Netflix and YouTube.

Amazon Alexa voice control

Alexa voice control enables a quick and easy setup for a movie or gaming session as users can switch inputs, launch content, adjust the volume and more with their voice. Note: Voice control is not supported in every country.

Key definitions

All Optoma projectors use DLP® technology, pioneered by Texas Instruments. This technology uses millions of mirrors to produce high quality images and ensures the projectors do not suffer colour degradation over time.

www.optomaeurope.com/projectortechnology/DLP

Resolution

A projector's native resolution is the number of pixels that it has available to create an image. The greater the resolution of a projector, the greater the detail and sharpness of the projected image.

Brightness

Brightness is the light output of the projector. The brightness rating (ANSI lumen or LED brightness) is a measurement of the light energy being generated by the projector itself.

Contrast

Contrast is the difference between the brightest and darkest parts in an image. A high contrast is particularly important for home projectors as it produces a picture with a deeper black level and clearly defined shadow detail.

Aspect ratio

A projector's aspect ratio refers to the ratio between its width and height. For example, a 4:3 display produces an image that is more square, where a 16:9 ratio produces an image that is more rectangular in shape. The most common video projector aspect ratios are 4:3 (XGA and SXGA), 16:10 (WXGA and WUXGA) and 16:9 (standard HDTV, 1080p).

Throw ratio

Throw ratio is the ratio between the projection distance and image width. For example, a throw ratio of 2:1 means to achieve every unit of screen width requires 2 units of projection distance. Normally quoted as a range as most projectors have a zoom facility.

Keystone correction

Keystone correction is performed digitally before the image passes through the lens. It can be used to manipulate the projected image vertically and/or horizontally so that you can get it as close to an even rectangle as possible.

Lens shift

Lens shift gives you the ability to move the projected image up or down and left or right, while keeping the projector stationary. This makes it easier to position the projector in your room and enables a wider range of screen size options.

PureMotion

Using sophisticated frame-interpolation technology, advanced motion control processing eliminates motion blurring or image judder, even in high-speed action sequences.

DynamicBlack

This feature gives more depth to your image by smoothly adjusting the lamp output, based on the brightness information of each frame; to create a stunning high contrast ratio. Bright scenes appear crisp and clear, while dark scenes remain detailed with deep blacks and exceptional light and shade detail.

All other product names and company names used herein are for identification purposes only and may be trademarks or registered trademarks of their respective owners. DLP®, BrilliantColor™ and the DLP logo are registered trademarks of Texas Instruments. Crestron®, the Crestron and RoomView® logo are registered trademarks of Crestron Electronics, Inc. MHL, Mobile High-Definition Link and the MHL logo are trademarks or registered trademarks of the MHL, LLC. *Lamp based projectors brightness and lifetime will vary depending on selected projector mode, environmental conditions and usage. As is common with all lamp based projectors, brightness will decrease over the lamp lifetime. LED projectors do not have a replaceable lamp and the brightness does not decay significantly over the product lifetime. †The quoted noise level is based on testing and will vary according to operational use and environmental conditions. ‡Typical lamp life achieved through testing will vary according to operational use and environmental conditions. §The quoted LED brightness rating is based on the perceived equivalent ANSI lumen brightness when compared to a standard lamp projector. The LED brightness rating takes into account the Helmholtz-Kohlrausch (HK) effect on the perceived brightness of colours. ¶Lamp life hours is based on a daily cycle that reflects projector usage in a typical education environment. Errors and omissions excepted, all specifications are subject to change without notice. All images are for representation purposes only and may be simulated.
